Re: Ground Water Permit No. G3-27986

Dear Mr. Weber:

In response to your request, you are hereby granted an extension to complete construction for the reason(s) below:

- Complete the trellis system for the orchard that was planted and complete the remaining planting in two years.

The new deadline to submit your *Construction Notice* is **December 1, 2014**.

It is noted that the permit authorizes up to three wells to serve irrigation water to Section 29. You provided metering records for only one well. If additional wells are integrated in the system or used for irrigation in Section 29, additional meters are required to be installed and metering records need to be maintained for each well. Please review the water system and ensure compliance with the metering requirements.
